Chris,

Please review the attached BAW for the Pixie Dust. I used 7000 tons as the estimated/WAG of soil to be treated.

I don't think MT2 will be responsive and as our RFQ says this is a time critical project.

Let me know so we can get a PO going and issued to Enviroblend. They have a 7 to 10 day delivery. There are 22 ton super sacks on each truck. We will need to estimate how many trucks we want delivered and the weeks afterwards.

Your thoughts?
